

## Striplight 600 mm

Why pay an electrician to install wiring in tight, dark spaces when you could just mount our Striplight Touch in minutes? Then just touch to switch on or off. Cheaper, longer lasting and more cost effective to run, our revolutionary Striplight can replace fluorescent strips.

- ✓ Great for use in kitchens and under cupboards
- ✓ Unique touch on and touch off system
- ✓ Very high light output, but uses just 10 watts of power
- ✓ Instant start, no more flickering, and a super long life
- ✓ Versatile mounting options including options 3M tape, screw brackets and magnet for attaching to metal
- ✓ One box solution! Everything you need is inside the box, including power supply, connection wires, mounting system, remote, and our unique touch on/off LED strip light
- ✓ Great replacement for old, costly striplight, start saving money today
